

CH SHARIF AND SAEED HOSPITAL

Front Desk / Billing Portal

Appointments, Encounters, Hospital Billing, Collections and User Settlement

The only operational portal that collects Hospital patient payments.

Prepared by iSysware Software Solutions | Final Source of Truth v6.3

Core responsibilities

- Book OPD appointments and accept walk-ins.
- Create temporary Self-Pay visit identity or select permanent Panel Patient.
- Handle OPD / Observation / Emergency encounter billing.
- Receive all Hospital patient payments, including Admission advance/partial/final payments.
- Generate receipts/refunds according to approval rules.
- Maintain each cashier's own Balance Sheet and Account Settlement.

Appointment Booking flow

Patient -> Appointment -> Department + Doctor + Slot -> Estimated Service Amount -> Advance/Payment -> **Booked**

- Payment status: Unpaid / Partially Paid / Paid (advance coverage).
- At check-in, appointment converts into actual encounter and advance is adjusted against the Hospital invoice.
- Cancellation/no-show/refund behavior is policy-configurable.

Walk-in / OPD / Observation / Emergency flow

Temporary/Panel Patient -> Encounter Type -> Services -> Discount if authorized -> Hospital Invoice -> Full/Partial Payment -> **Receipt**

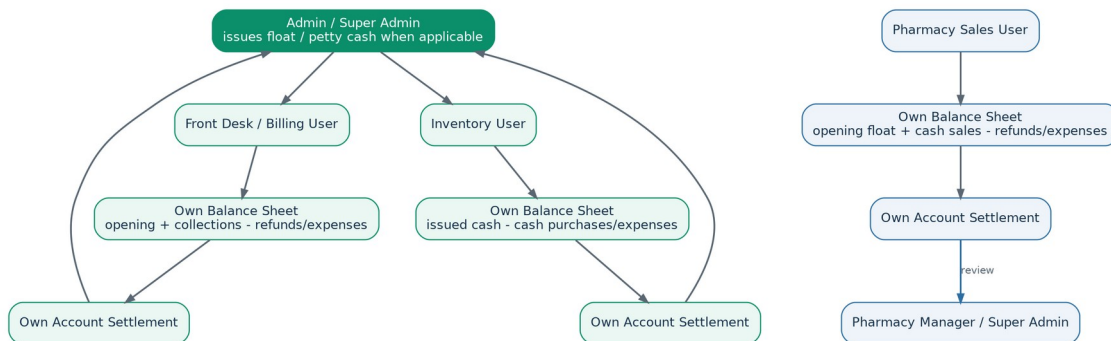

Normal/Self-Pay patients are temporary encounter identities. Permanent reusable patient master is for Panel Patients only.

Admission payment request flow

Admission sends Payment Request -> Billing opens linked Admission -> Collect Cash/Card/Bank/Online -> Receipt -> **Payment syncs to Admission**

Admission never receives Hospital cash, even for partial payments during the stay.

Cashier Balance Sheet and Account Settlement

Each Billing cashier has an individual cash position and settles their own account.

- Opening float/petty cash if assigned.
- Cash collections increase expected physical cash.
- Card/Bank/Online are reported but do not increase physical cash.

- Cash refunds and approved cash expenses reduce expected physical cash.
- Settlement records expected cash, physical cash, variance, handover amount and carry-forward.

Reports

- Appointments by doctor/department/date/status.
- Billing/collection by user, method, encounter and date.
- Admission partial/final payments.
- Refunds, outstanding, discounts, receipts and cashier settlements.
