Dispensing flows

Flow	Steps
HMS Admission request	Open request -> verify -> select eligible batch -> dispense full/partial -> invoice/status -> send result/clearance to HMS
Retail/direct sale	Search medicine -> quantity -> batch allocation -> Pharmacy invoice -> collect payment -> receipt
Return	Open original transaction -> validate return -> return quantity/value -> stock movement IN where allowed -> refund/credit according to policy

Cash accountability

- Each Sales/Dispensing user has an individual Balance Sheet.
- Opening float/petty cash if assigned; cash sales add to expected physical cash.
- Cash refunds/authorized cash expenses reduce expected physical cash.
- Online/card/bank payments are separate from physical cash.
- Each user submits their own Account Settlement to Pharmacy management.

Stock accountability

- Dispensing cannot bypass medicine stock ledger.
- Batch/expiry is recorded where applicable.
- User identity is stored as Dispensed By / Sold By / Refunded By.
