

CH SHARIF AND SAEED HOSPITAL

Hospital Management System

Portal Navigation, Sections, Buttons & Forms Specification

HMS + Standalone Pharmacy | UI Functional Blueprint

Purpose: define exactly what appears in each portal sidebar/navigation, what each section contains, which buttons are visible, and which Add/Edit/Action forms are required.

Active HMS portals: Super Admin, Admin, Front Desk / Billing, Admission, Inventory Management

Standalone Pharmacy portals: Pharmacy Super Admin, Pharmacy Manager, Pharmacy Sales / Dispensing Staff

Important rule: Staff Master is separate from Portal Accounts; future Staff Portal may link to the same staffld.

Important rule: Admission never collects Hospital cash; Hospital payments are collected by Front Desk / Billing only.

Prepared for CH Sharif and Saeed Hospital

1. Document Scope & Common UI Rules

This document is a screen-level specification for navigation, sections, actions and forms. It does not replace the workflow/formula PDFs.

Portal boundary

- HMS has 5 portals: Super Admin, Admin, Front Desk / Billing, Admission, Inventory Management.
- Pharmacy is a separate connected project with 3 portals: Pharmacy Super Admin, Pharmacy Manager, Pharmacy Sales / Dispensing Staff.
- Staff records are HR/employment records. Portal Accounts are login/access records. They may be linked, but they are not the same record.

Shared layout standards

- Left sidebar: portal name, module groups, current page highlight, quick module search, Logout at bottom.
- Top bar: hospital/pharmacy identity, global search where useful, notifications, logged-in user, portal badge and profile menu.
- Page header: breadcrumb, page title, short description, primary action on the right.
- Master-data pages: Search + relevant filters + result count; Import Excel only where bulk maintenance makes business sense.
- Report pages: From Date + To Date, quick presets, report-specific filters, PDF, Excel and Print.
- No standalone Roles & Permissions, Login Activity or Audit Logs pages in HMS navigation.
- Visible buttons must work; posted financial/stock/payroll transactions are corrected by reversal/adjustment rather than silent delete.
- Every transaction stores the actual actor: Created By, Updated By, Collected By, Approved By, Paid By, Dispensed By, Issued By, etc.

Shared button vocabulary

Navigation / Page	What appears in the section	Main buttons / actions	Forms / key fields
List / Master pages	• Search • Filters • status badges • pagination/result count	• Add New • View • Edit • Activate/Deactivate • Import Excel • Export PDF • Export Excel • Print	• Add/Edit modal or drawer • Mandatory field validation • Save / Cancel
Transactional pages	• Transaction header • line items • totals • actor and status	• Create • Add Line • Save Draft • Confirm/Post	• Header fields • line-item grid • remarks • confirmation

		• Print/Download • View History	
Report pages	• KPIs • date range • filters • table/summary	• Apply Filters • Reset • Download PDF • Download Excel • Print	• From Date • To Date • module-specific filters
Cash settlement pages	• Opening cash • cash in/out • online totals • expected cash • physical cash • variance	• Prepare Settlement • Submit • View Receipt • Print	• Period • physical cash • handover amount • carry-forward • remarks

2. Super Admin Portal

Highest protected HMS management portal. Full normal hospital-management scope plus protected-account safeguards.

Recommended sidebar navigation

Overview: Dashboard • Hospital Overview

Hospital Management: Departments • Services & Rates • Wards / Rooms / Beds • Corporate Panels

Users & Workforce: Admin Users • Staff Users • Shift Management • Attendance

Payroll: Salary Payroll • Doctor Commission

Patients & Operations: Panel Patient Registry • Appointments / Operations Overview

Financial Control: Billing Overview • Collections • Discounts • Refunds • Outstanding • Petty Cash / Advances • Balance Sheets • Account Settlements

Oversight: Inventory Oversight • Pharmacy Integration

Reporting & System: Reports • System Settings

Portal-specific rules

- Super Admin and Admin have the same normal hospital-management functionality.
- Super Admin account protection: cannot disable/delete self or remove the last active Super Admin.
- Actual logged-in user is stored on every action.

Section-by-section UI specification

Navigation / Page	What appears in the section	Main buttons / actions	Forms / key fields
Dashboard	• Hospital KPIs • patient/operations summary • billing/collections • occupancy • inventory/pharmacy summaries • alerts • recent activity	• Date/period selector • Open Module • Refresh	• No create form; drill-down only
Hospital Overview	• Hospital profile • contact/address • working hours • billing/legal fields • logo	• Edit Profile • Save • Cancel	• Identity • contacts • address • working hours • billing/legal metadata

			• logo
Departments	• Department master • head • type • status • capabilities	• Add Department • View • Edit • Activate/Deactivate • Import Excel • Export	• Code • name • head • type • OPD/OBS/ER/Admission/Pharmacy capabilities • status
Services & Rates	• Chargeable services • department/category • billing unit • rates • panel eligibility	• Add Service • View • Edit • Activate/Deactivate • Import Excel • Export	• Code • name • department • category • billing unit • standard rate • panel eligible • discount allowed • manual-rate override • status
Wards / Rooms / Beds	• Hierarchy Department -> Ward -> Room -> Bed • occupancy and operational status	• Add Ward • Add Room • Add Bed • Edit • Mark Out of Service • Export	• Ward: department/name/type • Room: ward/name/type • Bed: room/bed no./daily rate/status
Admin Users	• Admin and protected Super Admin records	• Add Admin • View • Edit Admin • Reset Password • Suspend/Reactivate	• Name • email/username • role (Admin only for creation by Admin) • password/reset • status
Staff Users	• All hospital staff • Portal User or Staff Record Only • employment and linked login	• Add Staff • View • Edit • Reset Password • Suspend/Reactivate • Import Excel • Export	• Personal info • staff category • department • designation • shift • portal access if needed • username/password if Portal User • status • salary profile • commission profile when applicable
Staff 360 Profile	• Overview • employment/shift history • attendance • salary profile/history • commission profile/history	• Edit Staff • Attendance Report • Salary Report • Commission Report • View Portal Account	• No duplicate staff form; uses Staff Add/Edit

	• linked portal account • notes/documents		
Shift Management	• Department-wise shifts • 24/7/overnight shift rules	• Add Shift • Edit • Activate/Deactivate • Duplicate Shift	• Department • shift name • start/end • break • grace • late rule • early-exit rule • weekly off • overnight flag
Attendance	• Raw/processed attendance • present/absent/late/early exit/missing punch/leave	• Import/Sync Device • View Day • Correct Attendance • Approve • Export	• Correction: staff, date, original in/out, corrected in/out/status, reason, changed by/date
Salary Payroll	• Salary batches/statements • attendance deductions • allowances/adjustments • paid/outstanding	• Generate Salary • Review • Approve • Pay Salary • Partial Pay • Print Slip • Export	• Period type Day/Monthly/Custom • date range • staff/department • adjustment • payment amount/method/reference
Doctor Commission	• Service-based accruals • commission statements • paid/outstanding • adjustments	• Generate Commission • Review • Approve • Pay • Partial Pay • Reverse/Adjust • Export	• Doctor • period type • date range • eligible services • rule fixed/% • commission base Gross/Net • payment details
Corporate Panels	• Panel organizations • contact/status • service discount rules	• Add Panel • Edit • Activate/Deactivate • Configure Discounts • Export	• Organization • contact • address/notes • status • service-wise discount
Panel Patient Registry	• Permanent reusable Panel Patients only • MR • panel membership • contact/status	• Register Panel Patient • View • Edit • View History • Import Excel • Export	• Name • guardian • gender • DOB/age • CNIC/passport • phone/address • panel • member ID

			• status
Appointments / Operations Overview	• Today/upcoming appointments • OPD/OBS/ER/admission overview • statuses and drill-down	• Open Appointment • Open Encounter • Open Admission • Export	• Monitoring page; no direct cash form
Billing Overview	• Hospital invoices, payment status, encounter/admission source	• View Invoice • Print • Open Payment • Export	• No direct form; transactions originate from Billing
Collections	• Cash/card/bank/online collections by user/date/source	• View Receipt • Export • Print	• Date/user/method filters
Discounts	• Authorized discounts and usage	• View • Approve/Reject where policy requires • Export	• Discount request: source invoice/service, amount/%, reason, approver
Refunds	• Refund requests, approvals, paid refunds	• View • Approve/Reject • Process/Confirm • Export	• Original receipt/invoice • refund amount • reason • method • remarks
Outstanding Balances	• Hospital unpaid/partial invoices and aging	• View Invoice • Record/Route Payment • Export	• No direct collection if not Billing actor; management monitoring
Petty Cash / Advances	• Cash/advance issued to authorized users	• Issue Petty Cash • View • Adjust/Reverse • Print Voucher	• Recipient user • amount • date/time • purpose • method/source • remarks
Balance Sheets	• User-wise cash position and consolidated cash	• Open User Sheet • Filter • Export PDF/Excel • Print	• Period/user/portal/method filters
Account Settlements	• Submitted settlements from Billing/Inventory/management users	• Review • Accept • Partially Settle • Return/Reject • Print	• Expected cash • physical cash • variance • handover • carry-forward • review remarks
Inventory Oversight	• Stock/supplier ledgers, purchases, issues, adjustments, user settlement status	• Open Inventory Record • Export • Print	• Monitoring only
Pharmacy Integration	• Admission medicine request status	• Open Request	• No medicine stock editing in HMS

	• Pharmacy invoice/payment/clearance status	• Refresh Status • View Reference	
Reports	• Management, patient/panel, billing, collection, admission, inventory, staff, attendance, salary, commission	• Apply Filters • Reset • PDF • Excel • Print	• From/To • portal/module-specific filters
System Settings	• General settings, invoice/receipt settings, import/export, backup placeholder	• Edit • Save • Export Settings	• Configurable system defaults; no hard-coded fake hospital identity

3. Admin Portal

Same normal operational and management scope as Super Admin, but protected Super Admin accounts cannot be created, changed, suspended, deleted or password-reset by Admin.

Recommended sidebar navigation

Overview: Dashboard • Hospital Overview

Hospital Management: Departments • Services & Rates • Wards / Rooms / Beds • Corporate Panels

Users & Workforce: Admin Users • Staff Users • Shift Management • Attendance

Payroll: Salary Payroll • Doctor Commission

Patients & Operations: Panel Patient Registry • Appointments / Operations Overview

Financial Control: Billing Overview • Collections • Discounts • Refunds • Outstanding • Petty Cash / Advances • Balance Sheets • Account Settlements

Oversight: Inventory Oversight • Pharmacy Integration

Reporting & System: Reports • System Settings

Portal-specific rules

- No separate Roles & Permissions, Login Activity or Audit Logs pages.
- All Admin actions remain attributed to the actual Admin.

Section-by-section UI specification

Navigation / Page	What appears in the section	Main buttons / actions	Forms / key fields
Dashboard + Hospital Management	• Same normal operational scope as Super Admin	• Same working actions	• Same forms as Super Admin for permitted modules
Admin Users	• Admins plus protected Super Admin visibility	• Add Admin • Edit Admin • Reset Admin Password • Suspend/Reactivate Admin	• Cannot create/edit/deactivate/reset protected Super Admin
Staff / Shifts / Attendance	• Staff 360 profiles, shift setup, device attendance, corrections	• Add/Edit Staff • Correct Attendance • Approve • Reports	• Staff-specific salary/commission rules configured on Staff Add/Edit
Salary Payroll	• Generate/approve/pay salary independently	• Generate • Approve • Pay/Partial Pay	• Day/Monthly/Custom period; payment details

		• Print Slip	
Doctor Commission	• Generate/approve/pay commission independently	• Generate • Approve • Pay/Partial Pay • Adjust	• Doctor/date range/service-based calculation
Financial Control	• Collections, discounts, refunds, outstanding, petty cash, balance sheets, settlements	• Issue Cash • Review Settlement • Approve/Return • Export	• Same financial forms as Super Admin
Inventory / Pharmacy Oversight	• General inventory ledgers and Pharmacy bridge status	• View • Filter • Export	• No duplicate Pharmacy medicine stock ownership
Reports / Settings	• Same normal reports/settings except protected Super Admin controls	• PDF • Excel • Print • Save Settings	• Date/report filters; system defaults

4. Front Desk / Billing Portal

Operational portal for appointments, walk-ins, OPD/Observation/Emergency billing, all Hospital patient payments, receipts/refunds and cashier settlement.

Recommended sidebar navigation

Overview: Dashboard

Patient Flow: Appointments • Walk-In / Encounter Intake • OPD • Observation • Emergency

Billing: Hospital Invoices • Admission Payment Requests • Payments / Receipts • Discounts • Refunds • Outstanding • Panel Billing

Cash Control: My Balance Sheet • My Account Settlement

Reports: Reports

Portal-specific rules

- This is the only operational HMS portal that collects Hospital patient payments.
- Self-Pay patients remain temporary encounter identities; permanent reusable patient master is for Panel Patients only.

Section-by-section UI specification

Navigation / Page	What appears in the section	Main buttons / actions	Forms / key fields
Dashboard	• Today's appointments/walk-ins • OPD/OBS/ER counts • collections • outstanding • cash position • alerts	• New Appointment • New Walk-In • Open Payment Request • View Balance Sheet	• No standalone create form
Appointments	• Booked/confirmed/checked-in/completed/rescheduled/cancelled/no-show appointments	• Book Appointment • View • Edit/Reschedule • Check-In • Cancel • Collect Advance • Print	• Patient type • Panel Patient search or temporary identity • name/guardian/phone • department • doctor • service • date • time slot • estimated amount • advance/payment • notes
Walk-In / Encounter Intake	• Temporary Self-Pay or Panel Patient • OPD/Observation/Emergency type	• Create Encounter • Add Services	• Patient type • basic temporary details or Panel Patient

		• Send to Billing • Print Token	• encounter type • department • doctor • complaint/notes • payer
OPD	• OPD queue/cases, assigned doctor, service charges, status	• Open Case • Add Service • Generate Bill • Collect Payment • Complete	• Case details • service lines • discount if authorized
Observation	• Observation cases, running services/charges, status	• Open Case • Add Service • Generate/Update Bill • Collect Payment • Complete	• Case details • service lines • notes
Emergency	• Emergency cases, services, urgent billing status	• Open Case • Add Service • Generate/Update Bill • Collect Payment • Complete	• Case details • service lines • notes
Hospital Invoices	• All hospital invoices incl. OPD/OBS/ER and linked Admission hospital bill	• Create/Generate • View • Print PDF • Add Payment • Void/Reversal per policy	• Invoice source • service lines • qty • rate snapshot • discount • total • paid/outstanding
Admission Payment Requests	• Requests sent by Admission for advance/partial/final hospital payment	• Open Request • Collect Payment • Print Receipt • Mark Completed	• Admission reference • requested amount • payment amount • method • reference • remarks
Payments / Receipts	• Cash/card/bank/online transactions, partial payments, receipt history	• Receive Payment • View Receipt • Reprint • Export	• Invoice/admission ref • amount • payment method • transaction/reference no. • remarks
Discounts	• Discount entry/approval status on hospital services	• Apply Discount • Request Approval • Remove before posting	• Service/invoice • discount %/amount • reason • approver if required
Refunds	• Original receipt-linked refunds	• Create Refund	• Original receipt

		• Submit/Approve if allowed • Pay Refund • Print	• amount • reason • refund method • remarks
Outstanding	• Unpaid/partial hospital balances	• Open Invoice • Collect Payment • Print Statement	• Search/filter only; payment uses Payment form
Panel Billing	• Panel-linked hospital invoices/discounts and member references	• View Panel Bill • Apply configured rule • Print/Export	• Panel, member ID, eligible services, configured discounts
My Balance Sheet	• Opening float/petty cash • cash collections • refunds/expenses • online totals • expected cash	• View Day/Shift • Print • Prepare Settlement	• Period selector; read-only calculated totals
My Account Settlement	• User's own expected vs physical cash settlement	• Prepare • Submit • Print/Download	• Period • physical cash • handover amount • carry-forward • variance reason • remarks
Reports	• Appointments, billing, collections, admission payments, refunds, outstanding, discounts, own settlements	• Filter • PDF • Excel • Print	• From/To + user/method/encounter/status filters

5. Admission Portal

Non-cash inpatient portal for planned admission, bed assignment, running services, Pharmacy coordination and discharge.

Recommended sidebar navigation

Overview: Dashboard

Admission: Planned Admissions • Admission Check-In • Active Admissions • Bed Board / Transfers

Stay Management: Hospital Services / Procedures • Medication Fulfillment Mode • Pharmacy Requests • Hospital Payment Requests

Discharge: Clearances • Discharge

Reports: Reports

Portal-specific rules

- Admission never receives Hospital cash. All advance/partial/final Hospital payments are collected by Front Desk / Billing.
- Medication mode can be SELF or HOSPITAL MANAGED and can change during the stay with reason and audit history.
- Hospital Bill and Pharmacy Bill remain separate.

Section-by-section UI specification

Navigation / Page	What appears in the section	Main buttons / actions	Forms / key fields
Dashboard	• Planned admissions • active stays • bed occupancy • payment request status • Pharmacy request/clearance alerts • discharge readiness	• New Planned Admission • Admit Patient • Open Active Case	• No cash controls
Planned Admissions	• Future admission bookings, estimate and advance-request status	• Create Booking • Edit • Request Advance • Confirm Arrival • Cancel	• Patient type • temporary identity or Panel Patient • doctor • department • expected date/time • ward/room preference • estimated hospital amount • notes
Admission Check-In	• Convert planned/direct case to Active Admission	• Admit • Assign Bed • Print Admission Sheet	• Patient details • doctor • department • disease/diagnosis

			• weight if needed • ward • room • bed • admission date/time • medication mode
Bed Board / Transfers	• Ward/room/bed availability and occupied beds	• Assign Bed • Transfer • Mark Bed Out of Service where authorized	• From bed • to ward/room/bed • transfer date/time • reason
Active Admissions	• All active inpatient cases and running status	• Open Case • Add Service • Create Pharmacy Request • Request Payment • Start Discharge	• Case view consolidates services, payments, Pharmacy, clearances
Hospital Services / Procedures	• Room/bed charges, tests, procedures and other hospital services	• Add Service • Edit Draft Line • Remove Draft Line • Post Charge	• Service • qty • rate snapshot • performed by/doctor where relevant • date/time • notes
Medication Fulfillment Mode	• SELF or HOSPITAL MANAGED • change history	• Change Mode • View History	• Current mode • new mode • effective date/time • reason
Pharmacy Requests	• HOSPITAL MANAGED medicine requests and status from standalone Pharmacy	• New Request • Add Medicine • Submit • View Status • Cancel Draft	• Admission ref • medicine/item • qty • instructions/notes • requested by • priority
Hospital Payment Requests	• Requests to Front Desk/Billing; Admission does not collect cash	• Create Request • View Billing Receipt • Refresh Status	• Admission ref • requested amount • reason/type Advance/Partial/Final • notes
Clearances	• Clinical Ready • Hospital Billing Clearance • Pharmacy Clearance	• Mark Clinical Ready • Refresh Hospital Clearance • Refresh Pharmacy Clearance	• Clinical readiness confirmation + doctor/date; financial clearances are read-only integration states
Discharge	• Final discharge when required clearances are complete	• Prepare Discharge • Confirm Discharge • Print Discharge Summary	• Discharge date/time • doctor • summary/notes • clearance checks
Reports	• Planned/active admissions, bed occupancy/transfers,	• Filter	• From/To + department/doctor/ward/status filters

	services, payment-request status, medication mode changes, Pharmacy request status, discharge delays	• PDF • Excel • Print	
--	---	---	--

6. Inventory Management Portal

General hospital inventory for non-medicine supplies: procurement, Stock Ledger, Supplier Ledger, issues/returns, cash control and settlement.

Recommended sidebar navigation

Overview: Dashboard

Masters: Item / Product Master • Categories / Units • Suppliers • Stock Locations

Procurement: Purchase Requirements • Fund / Petty Cash Request • Purchases / Goods Receipt

Ledgers & Stock: Stock Ledger • Supplier Ledger • Stock Balance

Movements: Department Issue / Return • Stock Transfers • Supplier Returns • Adjustments / Damage • Low Stock / Reorder

Cash Control: Expenses • My Balance Sheet • My Account Settlement

Reports: Reports

Portal-specific rules

- Medicine inventory is excluded; standalone Pharmacy owns medicine stock.
- Cash purchase reduces the actual Inventory user's cash position; direct management/online payments do not enter that user's physical cash.
- No silent stock editing; corrections post ledger adjustments.

Section-by-section UI specification

Navigation / Page	What appears in the section	Main buttons / actions	Forms / key fields
Dashboard	• Stock value/quantity KPIs • low/reorder items • pending purchase/fund requests • supplier outstanding • cash position • recent movements	• Add Purchase Request • New Purchase/Receipt • Issue Stock • View Balance Sheet	• No single create form
Item / Product Master	• Non-medicine hospital supplies	• Add Item • Edit • Activate/Deactivate • Import Excel • Export	• Code • name • category • unit • reorder level • location • status
Categories / Units	• Reusable item categories and units	• Add	• Name/code

		- Edit - Activate/Deactivate	- description - status
Suppliers	Supplier master and terms/status	- Add Supplier - View - Edit - Activate/Deactivate	- Name - contact person - phone - address - terms - status - notes
Stock Locations	Stores/locations and receiving/issuing points	- Add Location - Edit - Activate/Deactivate	- Name - type - department if linked - status
Purchase Requirements	Required items / low-stock purchase requests	- Create Request - Add Lines - Submit - Approve/Return where permitted	- Requested items - qty - needed by - reason - estimated amount - priority
Fund / Petty Cash Request	Request cash/advance from Admin/Super Admin for purchases	- Request Funds - View Status - Cancel Draft	- Required amount - purchase/request reference - purpose - needed date - remarks
Purchases / Goods Receipt	Supplier purchase, invoice and received stock	- New Purchase - Receive Goods - Post - Print GRN - Attach Invoice	- Supplier - invoice/ref - date - items - qty - rate - total - payment method Cash/Direct/Online/Credit - location
Stock Ledger	Every IN/OUT/transfer/return/adjustment with running balance	- Filter - Open Reference - Export PDF/Excel - Print	From/To, item, category, location, movement type, user
Supplier Ledger	Purchases, returns, payments/credits and outstanding	- Open Supplier - Record Supplier Payment - View Purchase - Export	Payment: supplier, amount, date, method, reference, remarks
Stock Balance	Current quantity by item/location	- Filter - Export	Item/category/location/status filters

		• Print	
Department Issue / Return	• Stock issued to wards/departments and unused returns	• New Issue • Receive Return • Print Issue Slip	• Department • items • qty • from/to location • issued to/received from • reference • remarks
Stock Transfers	• Location-to-location stock movement	• New Transfer • Receive/Confirm • Print	• From location • to location • items • qty • date/time • reason
Supplier Returns	• Return purchased stock to supplier	• Create Return • Post • Print	• Supplier • original purchase • items/qty • reason • credit/refund handling
Adjustments / Damage	• Damage, loss, count variance, positive/negative correction	• New Adjustment • Approve/Post • Print	• Item • location • qty +/- • reason type • remarks • approval if required
Low Stock / Reorder	• Items at/below reorder level	• Create Purchase Request • Export	• Filter/list only; request prefilled from selected items
Expenses	• Approved non-stock inventory-side cash expense if allowed	• Add Expense • View • Print	• Category • amount • payment method • reference • details
My Balance Sheet	• Opening/issued petty cash, cash purchases, cash expenses, expected cash, online/direct payments separately	• View • Print • Prepare Settlement	• Period selector
My Account Settlement	• Inventory user's own settlement	• Prepare • Submit • Print	• Period • physical cash • handover • carry-forward • variance reason • remarks
Reports	• Stock ledger/balance, purchases, supplier ledger/outstanding, supplier returns, issues/returns, transfers,	• Filter • PDF	• From/To + item/supplier/location/user/status filters

	adjustments, low stock, cash sheet/settlement	• Excel • Print	
--	---	---	--

7. Pharmacy Super Admin Portal

Highest protected portal inside the standalone Pharmacy project: governance, users, medicine finance, stock oversight, cash settlements and HMS integration monitoring.

Recommended sidebar navigation

Overview: Dashboard

Setup & Users: Pharmacy Profile / Settings • Pharmacy Users • Medicine Categories / Units

Inventory: Medicine Master • Suppliers • Purchases / Receipts • Medicine Stock Ledger • Supplier Ledger • Batch / Expiry • Locations / Transfers

Operations: HMS Integration • Sales / Dispensing Overview • Returns / Refunds

Cash Control: User Balance Sheets • Account Settlements

Reports: Reports

Portal-specific rules

- Pharmacy is a separate project and owns medicine inventory, Pharmacy invoices and Pharmacy settlements.
- HMS only receives request/invoice/payment/clearance integration status.

Section-by-section UI specification

Navigation / Page	What appears in the section	Main buttons / actions	Forms / key fields
Dashboard	• Pharmacy sales/dispensing KPIs • stock/batch alerts • supplier outstanding • cash settlements • HMS integration alerts	• Open Module • Refresh	• Monitoring only
Pharmacy Profile / Settings	• Pharmacy identity, operational defaults, invoice/receipt settings	• Edit • Save	• Identity/contact, document settings, operational defaults
Pharmacy Users	• Pharmacy Manager and Sales/Dispensing accounts	• Add User • View • Edit • Reset Password • Suspend/Reactivate	• Name • role • username/email • password/reset • status • cash-handling flag if relevant
Medicine Categories / Units	• Reusable medicine classification/unit masters	• Add • Edit • Activate/Deactivate	• Name/code • description • status
Medicine Master	• Medicine, unit/category, batch/expiry behavior, rates/status	• Add Medicine	• Code

		- Edit - Activate/Deactivate - Import Excel - Export	- name - generic/brand as configured - category - unit - purchase/sale rates - batch/expiry required - status
Suppliers	Pharmacy supplier master	- Add Supplier - Edit - Activate/Deactivate	- Name - contact - phone - address - terms - status
Purchases / Receipts	Supplier purchase and medicine stock receipt	- New Purchase - Receive - Post - Print	- Supplier - invoice - medicine - batch - expiry - qty - cost - payment method - location
Medicine Stock Ledger	Every medicine IN/OUT by item/batch/location/user	- Filter - Open Reference - Export	- Date range - medicine - batch - location - movement
Supplier Ledger	Purchases, returns, payments/credits, outstanding	- Record Payment - View - Export	- Supplier - amount - method - reference - remarks
Batch / Expiry	Batch balances, near-expiry, expired	- View Batch - Transfer - Adjust/Quarantine - Export	- Batch no. - expiry - status/action reason
Locations / Transfers	Store/counter locations and transfers	- New Transfer - Receive/Confirm	From/to, items/batches, qty, reason
HMS Integration	Admission medicine requests, dispense/invoice/payment/clearance status	- Open Request - View Timeline - Retry Sync/Refresh	Integration monitoring; no HMS hospital billing form
Sales / Dispensing Overview	Retail/HMS sales by user/date	- Open Invoice - View Receipt	Monitoring

		• Export	
Returns / Refunds	• Pharmacy returns and refunds	• View • Approve/Process per policy • Export	• Original transaction, item/qty, amount, reason
User Balance Sheets	• Per-cashier expected/physical cash and online totals	• Open User • Export • Print	• Period/user filters
Account Settlements	• Pharmacy cashier settlements	• Review • Accept • Partially Settle • Return/Reject • Print	• Settlement totals + review remarks
Reports	• Sales, stock/batch/expiry, suppliers, cash, HMS integration	• Filter • PDF • Excel • Print	• From/To + relevant filters

8. Pharmacy Manager Portal

ERP-style medicine inventory and operational control: suppliers, purchases, batches/expiry, ledgers, transfers, HMS requests and cashier oversight.

Recommended sidebar navigation

Overview: Dashboard

Masters: Medicine Master • Suppliers

Procurement & Ledgers: Purchases / Receipts • Medicine Stock Ledger • Supplier Ledger

Stock Control: Batch / Expiry • Locations / Transfers • Returns • Adjustments • Alerts

HMS Operations: HMS Admission Requests • Dispensing Oversight

Cash Oversight: Cashier Balance Sheets • Settlement Review

Reports: Reports

Portal-specific rules

- Every stock movement is batch/location/user traceable where applicable.
- FEFO should guide expiry-managed medicine selection.
- Cashiers remain individually accountable; Manager does not merge users into one cash drawer.

Section-by-section UI specification

Navigation / Page	What appears in the section	Main buttons / actions	Forms / key fields
Dashboard	• Medicine stock KPIs • low/out stock • near-expiry • pending purchases • HMS requests • supplier outstanding	• New Purchase • Open HMS Requests • View Stock Ledger	• Monitoring
Medicine Master	• Medicine details and operational status	• Add/Edit • Activate/Deactivate • Import/Export	• Code/name/category/unit/rates/batch-expiry/status
Suppliers	• Supplier profiles and terms	• Add/Edit • Activate/Deactivate	• Name/contact/phone/address/terms/status
Purchases / Receipts	• Supplier -> medicine -> batch -> expiry -> qty -> cost -> receipt	• New Purchase • Receive Goods • Post	• Supplier • invoice • medicine lines

		• Print GRN	• batch • expiry • qty • cost • location • payment method
Medicine Stock Ledger	• All medicine movements by item/batch/location	• Filter • Open Reference • Export	• Date range, medicine, batch, location, movement type, user
Supplier Ledger	• Purchase, return, payment/credit, outstanding	• Record Payment • View Purchase • Export	• Supplier, amount, method, reference, remarks
Batch / Expiry	• Batch balance and expiry control	• View • Quarantine/Adjust • Transfer • Export	• Batch/expiry/action reason
Locations / Transfers	• Store-to-counter and location transfers	• New Transfer • Receive/Confirm	• From/to • medicine/batch • qty • reason
Returns	• Patient return and supplier return	• Create/Approve Return • Post	• Original transaction/purchase • medicine/batch • qty • reason • financial effect
Adjustments	• Expiry, damage, breakage, count variance	• New Adjustment • Approve/Post	• Medicine • batch • location • qty +/- • reason
Alerts	• Low stock, out of stock, near-expiry, expired	• Create Purchase • Open Batch • Export	• Filter/list only
HMS Admission Requests	• Accept/partial/reject requests, allocate batch, dispense, send status	• Accept • Partially Fulfill • Reject • Allocate Batch • Send to Dispensing • Mark Dispensed	• Admission/request ref • medicine • requested/approved qty • batch • rate • reason/notes
Dispensing Oversight	• Sales/Dispensing staff transactions and exceptions	• View Invoice • View User • Export	• Monitoring
Cashier Balance Sheets	• Individual Sales/Dispensing user cash positions	• Open	• Period/user filters

		• Export • Print	
Settlement Review	• Submitted Pharmacy user settlements if permission granted	• Accept • Partial • Return/Reject • Print	• Review remarks, accepted amount, carry-forward
Reports	• Stock ledger, batch/expiry, suppliers, purchases, HMS requests, dispensing, cashier settlement	• Filter • PDF • Excel • Print	• From/To + medicine/supplier/batch/user/status filters

9. Pharmacy Sales / Dispensing Staff Portal

Operational counter portal for HMS/retail dispensing, Pharmacy invoices/payments/returns and each cashier's own Balance Sheet and Settlement.

Recommended sidebar navigation

Overview: Dashboard

Dispensing: HMS Requests • Retail Sale / Dispense • Pharmacy Invoices • Payments / Receipts • Returns / Refunds

Stock Lookup: Medicine / Counter Stock Lookup

Cash Control: My Balance Sheet • My Account Settlement

Reports: My Reports

Portal-specific rules

- Each Sales/Dispensing user has a separate cash position and settlement.
- Dispensing cannot bypass the Medicine Stock Ledger.
- Batch/expiry and user identity are recorded where applicable.

Section-by-section UI specification

Navigation / Page	What appears in the section	Main buttons / actions	Forms / key fields
Dashboard	• Assigned HMS requests • today's sales • cash/online totals • returns • my expected cash	• New Retail Sale • Open HMS Request • View Balance Sheet	• Monitoring
HMS Requests	• Assigned Admission medicine requests	• Open • Dispense Full • Dispense Partial • Reject/Return to Manager if permitted • Print	• Request ref • medicine • approved qty • batch selection • dispensed qty • notes
Retail Sale / Dispense	• Medicine search, quantities, batch allocation, Pharmacy invoice	• New Sale • Add Item • Hold • Confirm Sale • Print Invoice	• Customer/basic reference if required • medicine • qty • batch • rate • discount if permitted • payment

Pharmacy Invoices	• Retail and HMS-linked Pharmacy invoices	• View • Print PDF • Receive Payment • Reprint	• Invoice lines/totals; payments separate
Payments / Receipts	• Cash/card/bank/online Pharmacy payments	• Receive Payment • Print Receipt • Reprint	• Invoice/ref • amount • method • transaction no. • remarks
Returns / Refunds	• Original transaction-linked returns	• Create Return • Submit/Process • Print	• Original invoice • medicine/batch • qty • reason • refund/credit method
Medicine / Counter Stock Lookup	• Available stock by medicine/batch at allowed locations	• Search • View Batch	• Read-only lookup
My Balance Sheet	• Opening float/petty cash, cash sales, refunds/expenses, online totals, expected cash	• View • Print • Prepare Settlement	• Period selector
My Account Settlement	• Own Pharmacy cash settlement	• Prepare • Submit • Print	• Period • physical cash • handover • carry-forward • variance reason • remarks
My Reports	• Own sales, HMS dispensing, returns/refunds, payments and settlements	• Filter • PDF • Excel • Print	• From/To + transaction/status/method filters

10. Cross-Portal Hand-offs & Screen Ownership

Quick reference for what moves between portals and which portal owns the action.

Navigation / Page	What appears in the section	Main buttons / actions	Forms / key fields
Appointment -> OPD	• Front Desk books appointment; check-in converts to encounter	• Front Desk owns booking, advance and Hospital payment	• Admission not involved unless doctor recommends admission
Admission payment	• Admission creates payment request	• Front Desk / Billing collects full/partial payment and prints receipt	• Admission only views synced payment/receipt status
Admission medicines	• Admission chooses SELF or HOSPITAL MANAGED	• HOSPITAL MANAGED request goes to Pharmacy	• Pharmacy owns dispense, stock movement, Pharmacy invoice and clearance
Discharge	• Admission checks Clinical Ready + Hospital Billing Clearance + Pharmacy Clearance	• Front Desk provides Hospital clearance; Pharmacy provides Pharmacy clearance	• Admission confirms final discharge
Inventory funding	• Inventory raises requirement/fund request	• Admin/Super Admin issues petty cash/advance	• Inventory spends, records purchase/stock, then settles own account
Cash settlement	• Every authorized cash-handling user owns their own Balance Sheet	• User submits settlement to responsible management	• No shared anonymous cash drawer
Attendance -> Salary	• Attendance device/raw punches -> processed attendance -> Admin/Super Admin correction/approval	• Salary module uses approved attendance	• Correction preserves original, corrected value, reason and actor
Doctor service -> Commission	• Completed service with doctor -> commission accrual	• Admin/Super Admin generates and pays commission separately from salary	• Salary and Commission never auto-merge
General Inventory vs Pharmacy	• HMS Inventory owns non-medicine stock	• Pharmacy owns medicine stock/batches/expiry	• Integration shares references/status, not duplicate stock ownership

Future Staff Portal readiness

- No separate Staff Portal is active in the current scope.
- If a Staff/Doctor self-service portal is added later, it must link to the existing Staff Master using staffid.
- The future portal may expose the staff member's own profile, attendance, salary slips, commission statements and approved schedule without creating a duplicate employee record.

Implementation sign-off checklist

- Sidebar matches this document and does not reintroduce retired pages.
- Every visible button has a working action.
- Forms show only fields relevant to the selected workflow and role.
- Report exports respect active filters/date range.
- All portal-bound security rules are enforced.

- Admission has no Hospital cash-collection controls.
- User-wise Balance Sheet/Settlement is available to every authorized cash-handling user.
- Stock, payroll and financial postings use explicit adjustment/reversal history.
- Staff-specific salary/commission settings are stored on Staff Add/Edit; global setup only contains reusable templates/defaults.
