

CH SHARIF AND SAEED HOSPITAL

Doctor Discharge Authorization & Clinical Closure v7.2

Doctor-only clinical discharge, credential verification, summary capture and Front Desk billing handoff.

FINAL SOURCE OF TRUTH - VERSION 7.2

Admission begins at Front Desk. Department bills remain separate. Central collections are allocated department-wise. Doctor discharge re-authentication, outsourced department settlement, Panel receivables, high-cost medicine approval, doctor-sponsored discount and doctor tax rules are included.

Supersedes v7.1 for all revised admission, billing, department settlement, doctor finance and panel-flow rules.

1. Why Doctor Re-Authentication Is Required

Admission staff may prepare the case for discharge, but clinical discharge is a doctor-only authorization. The doctor must re-authenticate at the discharge action so the system can store exactly which doctor clinically closed the admission.

Clinical discharge

1	Admission user opens active case and clicks Discharge.
2	Popup requests Doctor Username and Password.
3	System validates active doctor clinical-authorization credentials.
4	Verified doctor completes discharge summary form.
5	System stores Doctor Staff ID, name, department, authorization time and actual Admission user context.
6	Admission status becomes Clinically Discharged - Billing Pending.
7	Front Desk receives case for financial closure.

2. Doctor Credential Setup

- Doctor is first created in Staff Master.
- Clinical discharge authorization credentials are configured/activated separately from normal portal access.
- Doctor can remain Staff Record Only and still possess discharge authorization if hospital policy allows.
- Passwords are never shown in reports, exports or discharge records.
- Reset/deactivate actions store actual management user and timestamp.

3. Discharge Summary Fields

Field	Required purpose
Final Diagnosis	Final clinical diagnosis at discharge
Treatment / Procedures	Summary of inpatient treatment/procedures
Condition at Discharge	Clinical condition at time of discharge
Medicines / Instructions	Discharge medication/instructions
Follow-Up	Advice, department/doctor and optional follow-up date
Additional Notes	Other clinically relevant discharge notes

4. Financial Effect

- Doctor discharge does not collect money.
- No department invoice is merged by the discharge action.
- After clinical discharge, Front Desk verifies/finalizes separate department invoices, applies advance/partial payments and collects remaining patient responsibility.
- For Panel patients, panel receivable may remain open after patient share is cleared according to panel contract/authorization.
