

CH SHARIF AND SAEED HOSPITAL

Worked Business Examples v7.2

Numerical examples for admission advance, split billing, discounts, settlements, Panel receivables and doctor finance.

FINAL SOURCE OF TRUTH - VERSION 7.2

Admission begins at Front Desk. Department bills remain separate. Central collections are allocated department-wise. Doctor discharge re-authentication, outsourced department settlement, Panel receivables, high-cost medicine approval, doctor-sponsored discount and doctor tax rules are included.

Supersedes v7.1 for all revised admission, billing, department settlement, doctor finance and panel-flow rules.

Example 1 - Self-Pay Admission with Advance and Split Billing

Advance at admission: PKR 20,000. During stay: Hospital Services PKR 40,000, Lab PKR 15,000, Pharmacy PKR 10,000. Total gross = PKR 65,000. Front Desk allocates the PKR 20,000 advance to actual invoices as configured. Patient later pays a PKR 25,000 partial amount with explicit department allocation. At final billing, remaining patient outstanding is collected and allocated.

Example 2 - PKR 50,000 Full Payment Split

Department	Net invoice	Patient payment allocation
Hospital Services	20,000	20,000
Lab	20,000	20,000
Pharmacy	10,000	10,000
TOTAL	50,000	50,000

Example 3 - Hospital-Funded Discount

Hospital Services PKR 20,000 less Hospital-funded discount PKR 5,000 = PKR 15,000. Lab PKR 20,000 and Pharmacy PKR 10,000 remain unchanged. Total becomes PKR 45,000.

Example 4 - Doctor-Sponsored Discount and Commission

Doctor-eligible service = PKR 5,000. Configured doctor commission = PKR 1,000. Doctor gives patient PKR 500 Doctor-Sponsored Discount. Patient charge becomes PKR 4,500 for that service and doctor commission payable before tax becomes PKR 500, subject to configured commission rules/other adjustments. Commission tax is then applied separately to the taxable commission base.

Example 5 - Doctor Salary Tax

Doctor monthly salary profile and salary tax profile are independent of commission. Salary payable before tax is calculated from salary/attendance rules. Salary tax is deducted using the effective tax configuration. Commission tax is not mixed into salary tax.

Example 6 - Outsourced Lab Partial Settlement

Lab department realized collections eligible for provider settlement = PKR 180,000. Authorized user pays PKR 100,000 by Bank Transfer. Settlement status becomes Partially Settled; remaining provider payable = PKR 80,000. Voucher stores bank reference and provider representative acknowledgement.

Example 7 - Panel Patient

Lab contract invoice = PKR 30,000. Panel covers 80% = PKR 24,000 Panel Receivable; patient co-pay = PKR 6,000. Front Desk collects PKR 6,000. Lab outsourced-provider settlement cannot assume the PKR 24,000 panel portion is realized until the panel company actually pays and that remittance is allocated to Lab.

Example 8 - High-Cost Medicine

Medicine rate = PKR 6,000, quantity = 2, line total = PKR 12,000. Threshold = PKR 10,000. Authorization popup is mandatory. Pharmacy cannot dispense until all configured attendant/management/panel authorization requirements are satisfied.
