

CH SHARIF AND SAEED HOSPITAL

Admission to Discharge & Billing - Complete Flow v7.2

Dedicated admission lifecycle from Front Desk intake to doctor discharge, final billing, Panel handling and outsourced-provider settlement.

FINAL SOURCE OF TRUTH - VERSION 7.2

Admission begins at Front Desk. Department bills remain separate. Central collections are allocated department-wise. Doctor discharge re-authentication, outsourced department settlement, Panel receivables, high-cost medicine approval, doctor-sponsored discount and doctor tax rules are included.

Supersedes v7.1 for all revised admission, billing, department settlement, doctor finance and panel-flow rules.

1. Admission Begins at Front Desk

Front Desk admission

1	Select Self-Pay or Panel Patient
2	Verify panel eligibility/authorization when applicable
3	Select doctor, admitting department and bed preference
4	Choose configured fulfillment modes
5	Create admission file
6	Receive optional advance
7	Print admission/advance receipt
8	Send file to Admission Portal

2. Inpatient Stay and Running Charges

Admission stay

1	Admission accepts case
2	Assign/confirm bed
3	Add Hospital services and procedures
4	Create Lab/Neurology/Pharmacy/other department requests
5	Apply high-cost medicine gate where required
6	Separate department invoices grow independently
7	Front Desk payment status remains visible to Admission

3. Running Bill and Partial Payment

- Patient/attendant may ask at any time: How much bill has been generated and in which departments?
- System can print Interim / Running Statement with department-wise breakdown.
- Patient may pay partial amount at Front Desk during the stay.
- Payment Allocation screen distributes the receipt across department invoices or leaves an explicit allowed patient credit.
- Admission Portal sees updated payment status but has no Receive Cash button.

4. Department Bill Example

Department	Net Bill
Hospital Services	PKR 20,000
Laboratory	PKR 20,000
Pharmacy	PKR 10,000
TOTAL	PKR 50,000

If the patient pays PKR 50,000, Front Desk allocates PKR 20,000 to Hospital, PKR 20,000 to Lab and PKR 10,000 to Pharmacy. If the patient pays less, Front Desk records a transparent partial allocation.

5. Discount Ownership

Discount source	Financial effect
Hospital-funded	Reduces Hospital Services invoice only unless another explicit owner-funded policy applies.
Doctor-sponsored	Reduces the linked doctor service and is deducted from that doctor commission payable.
Panel contract/tariff	Contract pricing/coverage, not treated as a generic Hospital discount.
Outsourced department/provider	Only provider/department-approved adjustment affects that department ownership.

6. Doctor Discharge

Discharge

1	Admission user clicks Discharge
2	Doctor credentials popup
3	Doctor username/password validated
4	Doctor completes discharge summary
5	Clinical discharge stored under doctor identity
6	Status -> Clinically Discharged - Billing Pending
7	Case appears at Front Desk for final billing

7. Final Billing

Final billing

1	Front Desk verifies all department invoices
2	Applies advance and prior partial allocations
3	Collects remaining Self-Pay patient responsibility or Panel patient share
4	Posts final payment allocations
5	Prints separate department invoices plus consolidated statement
6	Marks patient financial closure according to payer rules

8. Panel Variation

- Panel patient is selected from permanent Panel Patient Registry.
- Each department calculates Patient Share and Panel Receivable.
- Front Desk collects patient co-pay/share; panel balance stays receivable until remittance.
- Panel-covered amount is not treated as patient cash due if valid coverage applies.
- Provider settlement waits for actual panel realization.

9. Outsourced Lab / Neurology Setup and Payment

- Super Admin/Admin marks department as Outsourced and links an Outsourced Provider.
- Provider profile stores representative, payment terms, allowed payment methods, bank/cheque details, settlement cycle and optional tax/withholding rules.

- Front Desk collects/allocates patient money; provider does not directly collect through Admission.
- Billing/Admin/Super Admin opens Provider Settlement and pays Full or Partial amount based on eligible realized provider payable.
- Settlement voucher captures representative acknowledgement and actual settling user.

10. Doctor Commission Discount and Taxes

- Doctor-sponsored discount is explicitly deducted from that doctor commission payable.
- Commission tax is configured separately and deducted from commission stream.
- Salary tax is configured separately and deducted from salary stream.
- Salary and Commission remain independent balances and payments.

11. High-Cost Medicine During Admission

- Super Admin/Admin configures threshold and required approval mode.
- Line amount above threshold opens authorization popup.
- Attendant confirmation and/or Admin/Super Admin credential approval is recorded according to policy.
- Pharmacy request stays blocked until authorization is complete.

12. Final Admission-to-Billing Status Chain

ADMISSION CREATED AT FRONT DESK -> ACTIVE IN ADMISSION -> DOCTOR CLINICALLY DISCHARGED -> BILLING PENDING -> FRONT DESK FINANCIAL CLOSURE -> DEPARTMENT / PANEL / PROVIDER LEDGERS CONTINUE AS REQUIRED
